Nancy,

I've actually set-up a GoTo meeting; I neglected to do that earlier and I apologize for the confusion. Set up for tomorrow at 130 CDT...just as the previous invite indicated.
I think you've got all the questions covered and the other documentation is much appreciated! Looking forward to the call tomorrow!

2. Use your microphone and speakers (VoIP) - a headset is recommended. Or, call in using your telephone.

Hi Joanne,

I received and accepted the invitation for the meeting tomorrow. Do you want me to call you all? If so, let me know what number to use. Or you can call me. I'll be in a conference room and the number there is 703-347-8891.

Here is a list of the questions I have received from you in the past month or so, as well as your labeling good practice document and two documents with details about the DOT leakproofness test, to facilitate our discussion.

Hi Nancy,

Kent is on a call right now, but I will catch him as soon as he's done and see what his schedule is like; I'll print off the questions that I've sent...I'm pretty sure I have them flagged...and we can use them as a resource. An electronic doc would be the most awesomely helpful (that's my way of saying please) IF you're able to do it. It means I can refer back to it and/or send it to customers with the same or similar questions.

THANK YOU!!

Hi Joanne and Kent,

Are you both available tomorrow for 30 minutes or so to discuss all the questions that have piled up? If you all are willing to discuss them verbally, I'll be able to get you answers much more quickly. I was planning to compile them into one document for ease of review/discussion. I don't know about you, but I've had a hard time keeping track of them all.

I am available tomorrow (Thursday, September 1) from 10:30 - 11:30 and 2:00 - 5:30 (all Eastern time). If we can't find a time in there that works for all three of us, my schedule is pretty open next Tuesday (9/6). I have a meeting from 2:00 - 3:00 Eastern, but am available other than that.

Let me know a day/time that works for you all! In the meantime, I'll compile all of your questions into one document so it's all in one place.
